

Rizzoli's encourages drivers to 'Go Green'

Rizzoli's Automotive recently launched a "Go Green" package that allows customers to make their cars as eco-friendly as possible.

The San Luis Obispo auto shop service includes cleaning and maintenance that helps a car run more efficiently and decreases its harmful emissions.

"Most drivers want to be as environmentally-conscious as possible but are unable to give up vehicle use. Our "Go Green" packages help their vehicles be as eco-friendly as possible," said **Kyle Rizzoli**, general manager.
